

Area Highlights

Rockwoods Reservation was established in 1938, making it one of the oldest Conservation Areas. The 1,880-acre area provides opportunities to enjoy and learn about Missouri's fish, forest and wildlife resources through hiking trails, the Education Center and naturalist-led interpretive programs. This area has been designated by Audubon Missouri as an Important Bird Area (IBA). IBAs are sites that have been identified by Audubon as those that are the most crucial for bird populations, due to their abundance and/or diversity of birds present.
